RES Odour Control RTU

22000759/2x5Lt

	22000759/2x5Lt
Application	Multi-function Odour Neutraliser Ready to Use.
Features & Benefits	Physically binds odorant molecules preventing their release
	 Suitable for both hot and cold fogging
	Effective against majority of odours
	Suitable for use on wide range of fabrics and soft furnishings
Dilution	This product is supplied ready to use.
Equipment Required	Trigger/spray applicators
	Hot Fogging Units
	Cold Fogging Units
Use Instructions	FOGGING:
	Comply with equipment manufacturer`s instructions.
	Prepare the fogger and position it centrally to ensure even dispersion.
	3. Fill the reservoir with product.
	 Ensure that all windows and doors are shut to prevent loss of working vapour.
	5. Once machine has reached temperature, fog the area.
	Leave the treated area well ventilated for 20 minutes before re- entering.
	TRIGGER APPLICATION:
	Decant into a clean trigger/sprayer applicator.
	2. Apply in wide sweeping motions to ensure even coverage.
	Pay special attention to carpets and soft furnishings to ensure even coating without over-wetting the surface.
	4. Leave to air dry.
Hints & Tips	Always ensure that applicator device reservoir is clean and free from any other material previously used.
	Can be used in conjunction with carpet cleaning machines.
Precautions	Use all PPE advised in MSDS and COSHH Assessment
